

North Frontenac Little Theatre

Winter 2021

It has been 40 wonderful years since we produced our first play, Alice in Wonderland. That was nearly 80 plays ago! Join us soon in our new home, the Oso Hall, in Sharbot Lake.

President's Message

Happy New Year everyone from North Frontenac Little Theatre. You have probably read Jeff Green's article in the Northern News about the theatre receiving a \$14,500 Community Foundation Grant for Kingston and Area. This money, which goes to Central Frontenac Township, makes it possible to complete the installation of our theatre lighting system. The success of getting this grant is the result of Art Holloway's persistence and experience in applying for government grants.

I would like also to acknowledge another "persistence." Rudy Hollywood and Steve Scantlebury worked long hours at the Hall to build a cabinet that will house the electrical components of our lighting system. This was no easy task as the requirements were complex and not typical for a cabinet.

If you haven't already viewed the videos of our virtual performance of "A Christmas Carol," here is the link to our YouTube channel: https://www.youtube.com/playlist?list=PL0ynXq0Oujmf8sN1CfQW-3lp7M_7PV7Y9

We have no idea at this writing whether we will be able to have a production this year. But you can be certain once the pandemic is over and the renovations of the Hall are complete, there will be a production to inaugurate our theatre's new home.

Keep safe everyone.

Green Chroma Screen

All the actors were recorded in front of a green background known as a "green chroma screen." Video editing software is able to isolate the actors from the green background. This background is then replaced with images and videos.

Why green? Evidently that is one of the few colours not in the pigment of people's skin.
